

Second Grade French 2014-2015
French-speaking Countries

We explored the geography of French-speaking countries around the world, finding their locations on a French map. We then looked at the flags of some of these countries. Students chose their favorite flags and drew them on their class name tags.

Students also wrote *Je m'appelle* [my name is] on their name tags above their names, and *français* [French] under their names. The name on the tags shown here have been covered to protect the identity of the students.
